

USE CASES FOR REDEPLOYABLE CCTV

AS THE UK'S LEADING SUPPLIER OF **REDEPLOYABLE CCTV CAMERAS** FOR OVER 20 YEARS, WCCTV EXPLORES BOTH THE TYPICAL AND MORE INNOVATIVE DEPLOYMENT SCENARIOS FOR OUR MOBILE SURVEILLANCE SYSTEMS.

Below, we outline use cases for WCCTV's Redeployable CCTV units.

SAFER STREETS INITIATIVES

01

The UK government introduced funding to police and local authorities for investment in measures proven to cut crime.

WCCTV's Redeployable CCTV cameras are portable, this allows police forces to target crime hotspots and quickly move the cameras once the problems in a particular area have been solved.

02

ANTI-SOCIAL BEHAVIOUR

Highly overt units have a clear presence in the neighbourhood which acts as a proactive deterrent to offenders.

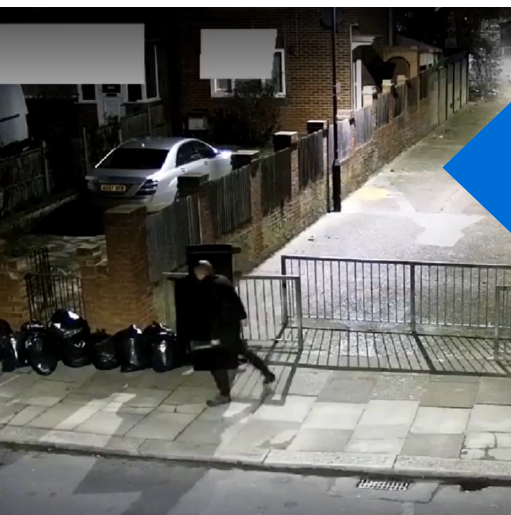

The high quality video evidence captured by the WCCTV Cameras can be utilised by police and local authorities to identify offenders and build cases for prosecutions.

FLY-TIPPING REDUCTION

03

Redeployable CCTV allows councils to target the worst affected areas with fly-tipping directly.

WCCTV's product development has led to the pairing of it's redeployable cameras with video analytics capability and ANPR technology to enhance its effectiveness detecting and prosecuting fly-tippers. Our ANPR cameras capture clear images of vehicle number plates linked to a national database to search vehicles of interest.

04

COVERT SURVEILLANCE

In conjunction with our police and local authority clients, we have developed a range of covert CCTV units that have successfully targeted criminal activities such as drug dealing and gang activity.

The WCCTV Covert Mini Dome is designed to discreetly blend into its environment and deliver live and recorded video via 4G connectivity.

Redeployable CCTV for Public Sector

Investing in redeployable CCTV cameras as an alternative or addition to your fixed CCTV systems delivers several key benefits.

Benefits include cost reduction, quicker installation, and a more flexible approach to your CCTV strategy. Redeployable CCTV may not suit every application, but they offer unparalleled advantages for the use cases described above.
