

# WCCTV HORNET

- Full 360° coverage
- Four 135° cameras with 15m IR range day or night
- Proactive site protection and monitoring
- Live audio challenge

- Provides an invisible area of protection
- High illuminated LEDs
- Up to 128GB SD card storage
- Storage to cloud applicable

- Power loss, tamper and shock alarms
- Rechargeable Li-ION cells
- 2 year autonomous operation
- Embedded high speed 4G connectivity
- GPS tracking
- Local bluetooth for arming and disarming

## KEY PRODUCT BENEFITS

				
Complete Managed Service	Invisible Area of Protection	Four 135° Cameras	Fully Autonomous	GPS Location Information
				
15m IR Illumination Day or Night	Remote Access to Footage	Live Audio Challenges	Proactive Site Protection	Ongoing Health Check

# WCCTV HORNET

The WCCTV Hornet is an ultra rapid-deployment surveillance unit specifically designed to enhance security and protection at temporary and/or remote sites.

The units can be installed in a matter of minutes, providing immediate security where you need it most.

Its striking appearance provides a highly-visible presence designed to deter criminal activity and intrusions onto sites before they occur.

As an all-in-one surveillance solution, it features wireless transmission of video and alarms, four 135° cameras with 15m IR range day or night, audio speakers to enable a live remote challenge to occur and cloud recording capability for the storage of evidential footage.

Its multiple motion detectors, audio speakers backed by high-end alarm monitoring and response effectively eliminate the need for costly manned-guarding, reducing security costs by up to 86% without compromising on quality or reliability.

The WCCTV Hornet incorporates rechargeable Li-ION cells to obtain maximum autonomy operation whilst deployed - each bank of cells are supported with a solar panel to extend the life.

The WCCTV Hornet offers a full array of anti-tamper alarms that notify WCCTV's third party monitoring station with anti-masking available on all of its PIRs. Furthermore, there are multiple options available to suit you for arming and disarming of the system including a secure application via bluetooth or managed automatically and remotely.

## INSTALLATION

One Person Install

One person installation process with ease of recommissioning

Rapid Deployment CCTV

The unit can be easily moved around a site to meet ever changing requirements

No Civil Works

No requirement for ground or civil works which prevents disruption

## EXAMPLE APPLICATIONS

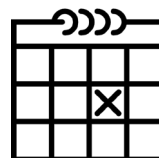

Utility Site Security

Asset Protection on Remote Sites

Construction/ Demolition

Temporary Works Security

Highways

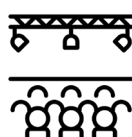

Gas Site Security

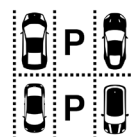

Environmental Agency

Vacant Property

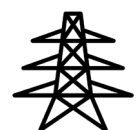

Major Public Events Safety

Car Parks

Rail Security

Electrical Site Security

# WCCTV HORNET TECHNICAL SPECIFICATION

Dimensions	1400-2000 x 460 x 460 mm
Operating Temperature Range	-20° to +60°
Power	8 Li-ION Cells and 12a battery (lead acid) backup
Weight	25KG
Playback Resolution	640x480
Camera FOV	4 x 135° (full 360° overlap)
Operation	Upload of video to cloud on alarm trigger
System Arming	Schedule and Bluetooth application
Encryption	256 AES video encryption
Snapshot Video Clip	Yes
Storage Device	Upto 128GB Micro SD Card
Alert	Detection, tamper, shock, anti-masking, low battery and WCCTV heartbeat integration
Audio	Live audio challenge
Motion Detectors	Wireless PIR detectors
Battery Life	2 years and solar
Light	IR Illumination, white light and blue strobe
PIR Range	15m
Network	4G and Bluetooth
Warranty	12 months warranty with options for extended warranty

## NETWORK

Remote Administration	Yes
Remote PC Client	Free WCCTV Software Download
Remote Web Browser	Viewing Only
Password Protected	Yes
Smartphone / Tablet Compatibility	Yes
